Subject: Bay Delta Workshops update and due dates

=====

Now that you are all done with Workshop 1, I thought you could use a reminder that written materials for Workshop 2 are due September 14, 2012 at 12 noon. Written materials for Workshop 3 are due October 26, 2012 at 12 noon.

Please follow the instructions in the revised notice (attached) for submitting written materials (see pp. 6 and 7) and please copy me on any submissions you make to the State Water Board.

I already have the names of most of your presenters for Workshop 2, but please also get me any updates to those names by Monday September 17. As for Workshop 1, I'll be working with you to create an agenda and ensure that we have a workable time budget for presentations.

As you prepare your written materials and presentations, please attend to the portions of workshop questions 1 and 2 (pp. 4 and 5) that relate to how the Bay-Delta Plan should be changed, how scientific uncertainty should be addressed, and what kinds of adaptive management and other programs the State Water Board should consider. Comments from Board members this week made it clear that they are looking for concrete suggestions and recommendations in these areas, along with a review of new science.
